NEWSFLASH – NEWSFLASH – NEWSFLASH

DATELINE: JULY 9TH, 2009 – 9:30AM

LOCATION: PEEL REGIONAL COUNCIL CHAMBERS, BRAMALEA, ONTARIO

Hi Webbers,

True to our word, I attended the Region of Peel Council Meeting as noted above to appear as a delegation, to officially record our previously issued and posted submission to Peel Region with reference to **WINSTON CHURCHILL BLVD FINANCIAL INEQUITIES**, as claimed by Smelly-Welly.com

Much is being made of “the crescendo of silence” with which our previously recorded letter was received! The “silence” was “deafening,” as was captured, as recorded, by Rogers Television. To view for yourselves you may by logging onto RogersTV.com, select Brampton as the region then go to the search option and type in Region of Peel Council which will take you to the page which will have as one of its selections, under video’s, the Peel Council – Thursday, July 9th, 2009. You may then watch and record the events of that meeting. I would, if I were you, also look at the video of the **2ND OF APRIL COUNCIL MEETING** as well, and review the issue of James Dick’s application for a gravel pit, would you believe, on Winston Churchill Blvd, but much further south that our issue location, and 100% a Peel Region issue. Makes for good understanding of the co-relation of pits, with a **COMMON OWNER**, i.e. James Dick Aggregates!

The Guelph Mercury’s reporter Ms. Nicole O’Reilly, in her report (see below), accurately laid out the details of the not so bizarre presentation you see, but, as an optimist (self confessed), I did not perceive the “thundering silence” as a **NEGATIVE**, not the absence of questions from Councillors as **UNEXPECTED**. You see, I **KNOW** the Councillors have, now, **ALL THE FACTS** they need to know to enable them to decide which way to handle this! I regard their “no questions” as an indicator for “no answers required!!” Thanks very much! Well? Why not? Logical?

Council were left in no doubt of Smelly-Welly.com's intent, clearly stated, and on the Public record! We shall extend Council the courtesy of a (4) week period in which to consider their position on this issue before we formally file our Section 122 Violation accusations.

You see, I consider the glass half full, not half empty (optimist?) We'll continue to report. God bless and keep talking!

God Bless
Bill Manderson

Byline: County critic met by silence at Peel council

BRAMPTON – Faced with no resolution in the Winston Churchill Boulevard saga, a Wellington County critic addressed Peel Regional council yesterday and urged its member to take action.

Bill Manderson – who was the first to alert Peel Region to the problem, according to its lawyers – was met with silence throughout and after his urgent deputation.

Officials from the county and the region have met privately with the Ministry of Natural Resources since this spring to settle a dispute over who should pay for upgrades to the road stretching between the two regions.

According to ministry documents, two Erin-area gravel companies were supposed to pay. This information, however, was uncovered after the county paid more than 3 million for reconstruction in 2007.

It also surfaced that the county billed Peel Region based on an old cost-sharing agreement. Though the bulk of Peel's \$1.5 million invoice remains unpaid.

In his five-minute address, Manderson called the issue at best a discrepancy and outlined his belief there was alleged wrongdoing on the part of Wellington County.

He concluded by offering the region what he believes are its best three options – sue Wellington County, join forces with his Riverbend Legal Group, which is bent on exploring other legal recourses, or accept any resolution offered by the Ministry of Natural Resources. "I know this looks like blackmail, but it's reality," he said.

Manderson's submission was received without comment or question.

Winston Churchill Boulevard is one of the focal subjects written about on his website, smelly-welly.com.

Based largely on his website writings, Manderson faces a libel lawsuit from two county officials.

One of the plaintiffs, the county chief administrative officer, Scott Wilson, sat in the Brampton audience yesterday and then quickly exited after Manderson spoke.

Wilson declined to comment on Manderson's comments or the Winston Churchill Boulevard proceedings.
