GORDON J. DUGAN, P.Eng
COUNTY ENGINEER

MEMORANDUM

TO: Lou Maieron
FROM: Gord Ough
RE: Your information Request of June 25, 2008
DATE: June 27, 2008

The following is the information requested in your June 25th memorandum.

I hope that the information will be of assistance to you.

The road construction cost was \$1,600,000.

County employees and equipment, augmented with rented heavy equipment, did the road construction. A minor amount of the rented heavy equipment that was used was James Dick's equipment. The vast majority of the rented heavy equipment was from Nellis Construction of Acton.

Cox Construction was awarded the paving contract for \$414,230.00 in 2006.

James Dick was awarded the contract for the supply of "A" gravel for \$137,000 and Dufferin Aggregates was awarded the contract for the supply of "B" gravel for \$130,250, in 2006.

HugoMark Construction Inc. was awarded the bridge contract for \$1,437,894.00.

James Dick graded and graveled the bad part of the road from his entrance to WR124 for years. Several years ago they excavated the sections with a pour road foundation, in some areas as much as 8 feet deep, and rebuilt it with gravel to reduce the amount of annual grading and gravel required.

James Dick donated the road widening required across the frontage of his property.
